

What is this document about?

- ## Anatomy of Statistical Modeling

- It is a step by step approach towards building analytical projects as it reflects what is to be done next in the journey.
- Stage by Stage breakdown of activities
- This tool will always help you in the process and bring you out of any confusion ever.
- It is designed to know how a project is done in the analytics and statistical areas, as to what comes after what and which technique needs to be used. How to clean data, prepare data, and model data.

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

- Understand Project Objectives
- Define the Problem
- Investigate Question and gather Requirements
- Convert into a Statistical Problem

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

- Understand Data
- Define Variables and Create Data Dictionary
- Validate for Correctness

Anatomy of Statistical Model

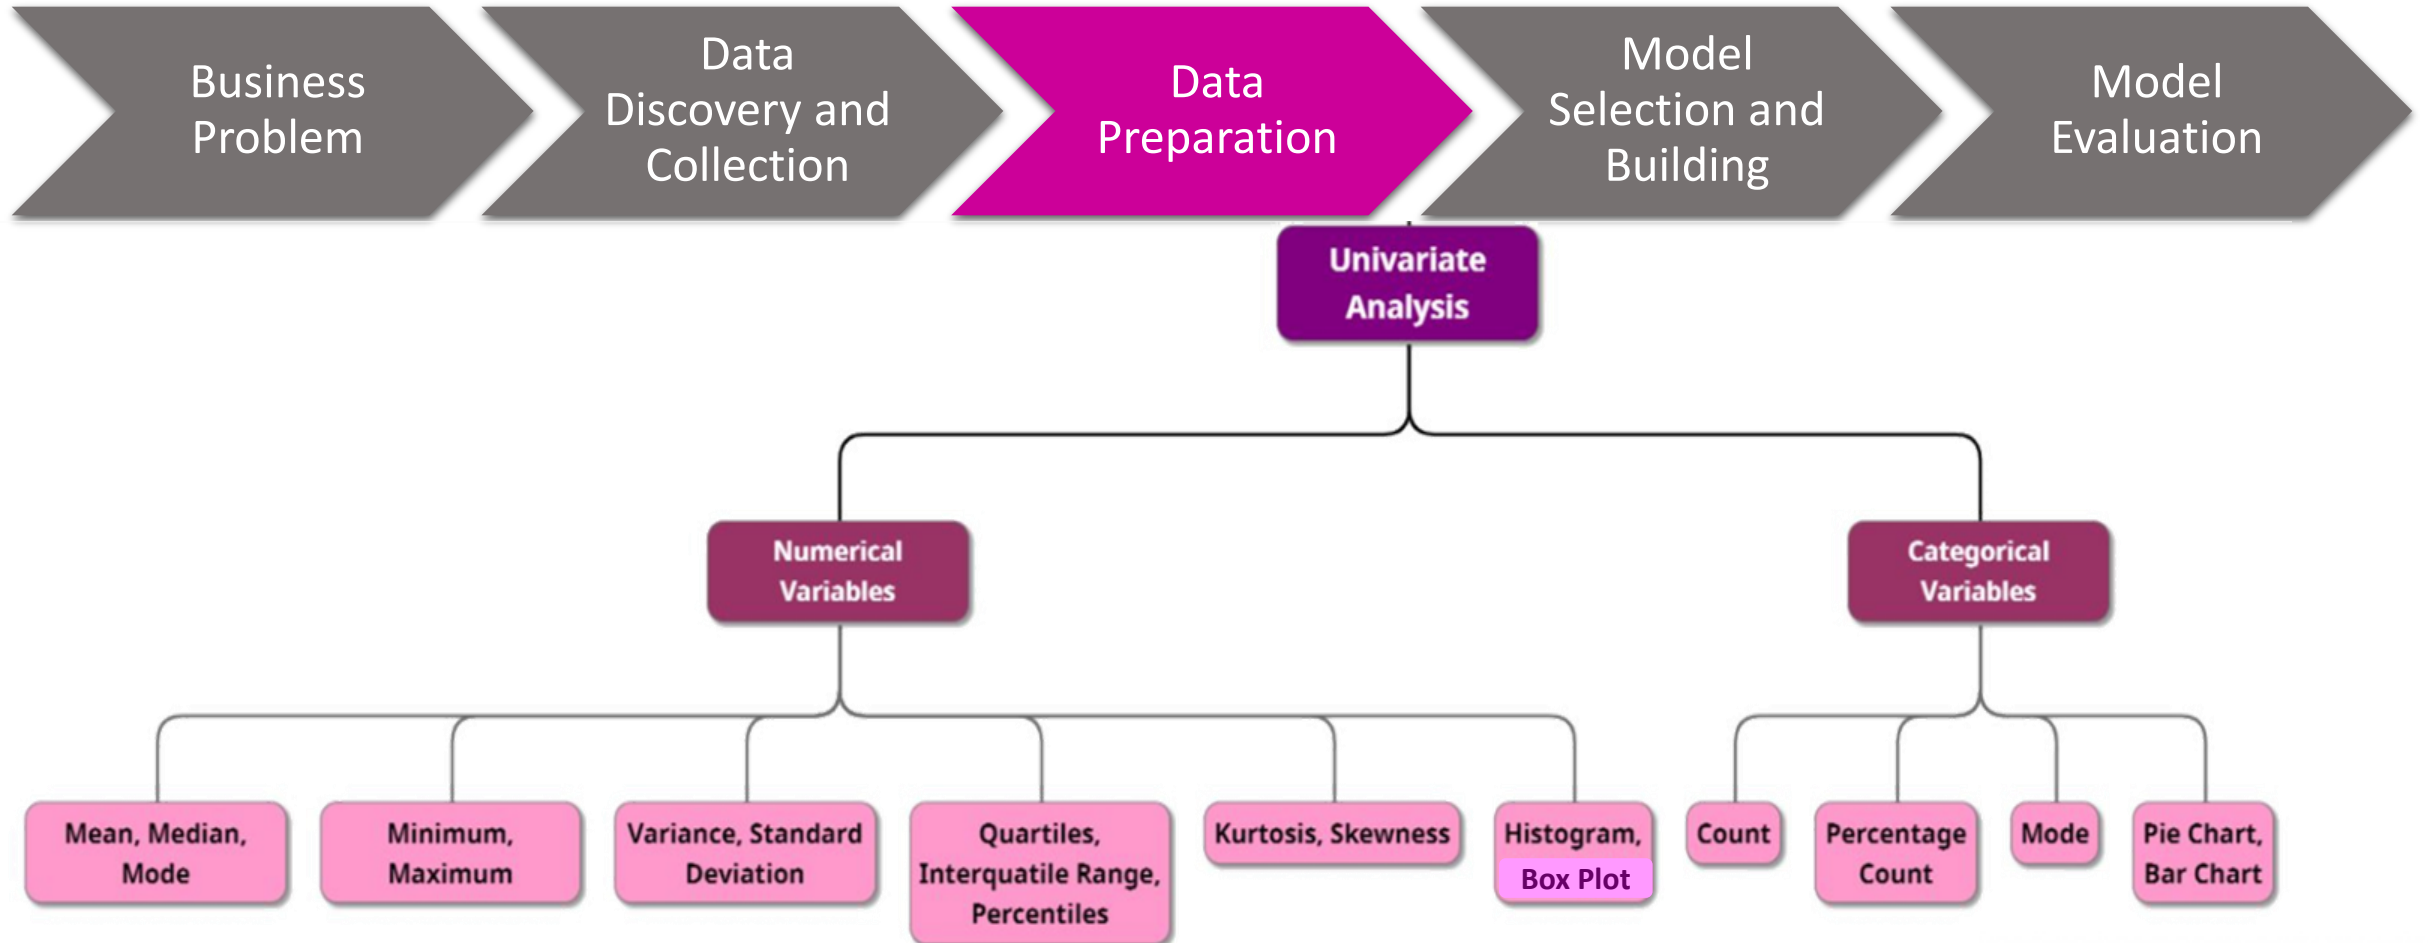

A step-by-step approach to solve a Business Problem

- Univariate Analysis
- Data Cleaning
- Feature Engineering
- Bivariate Analysis and Hypothesis Testing
- Data Split

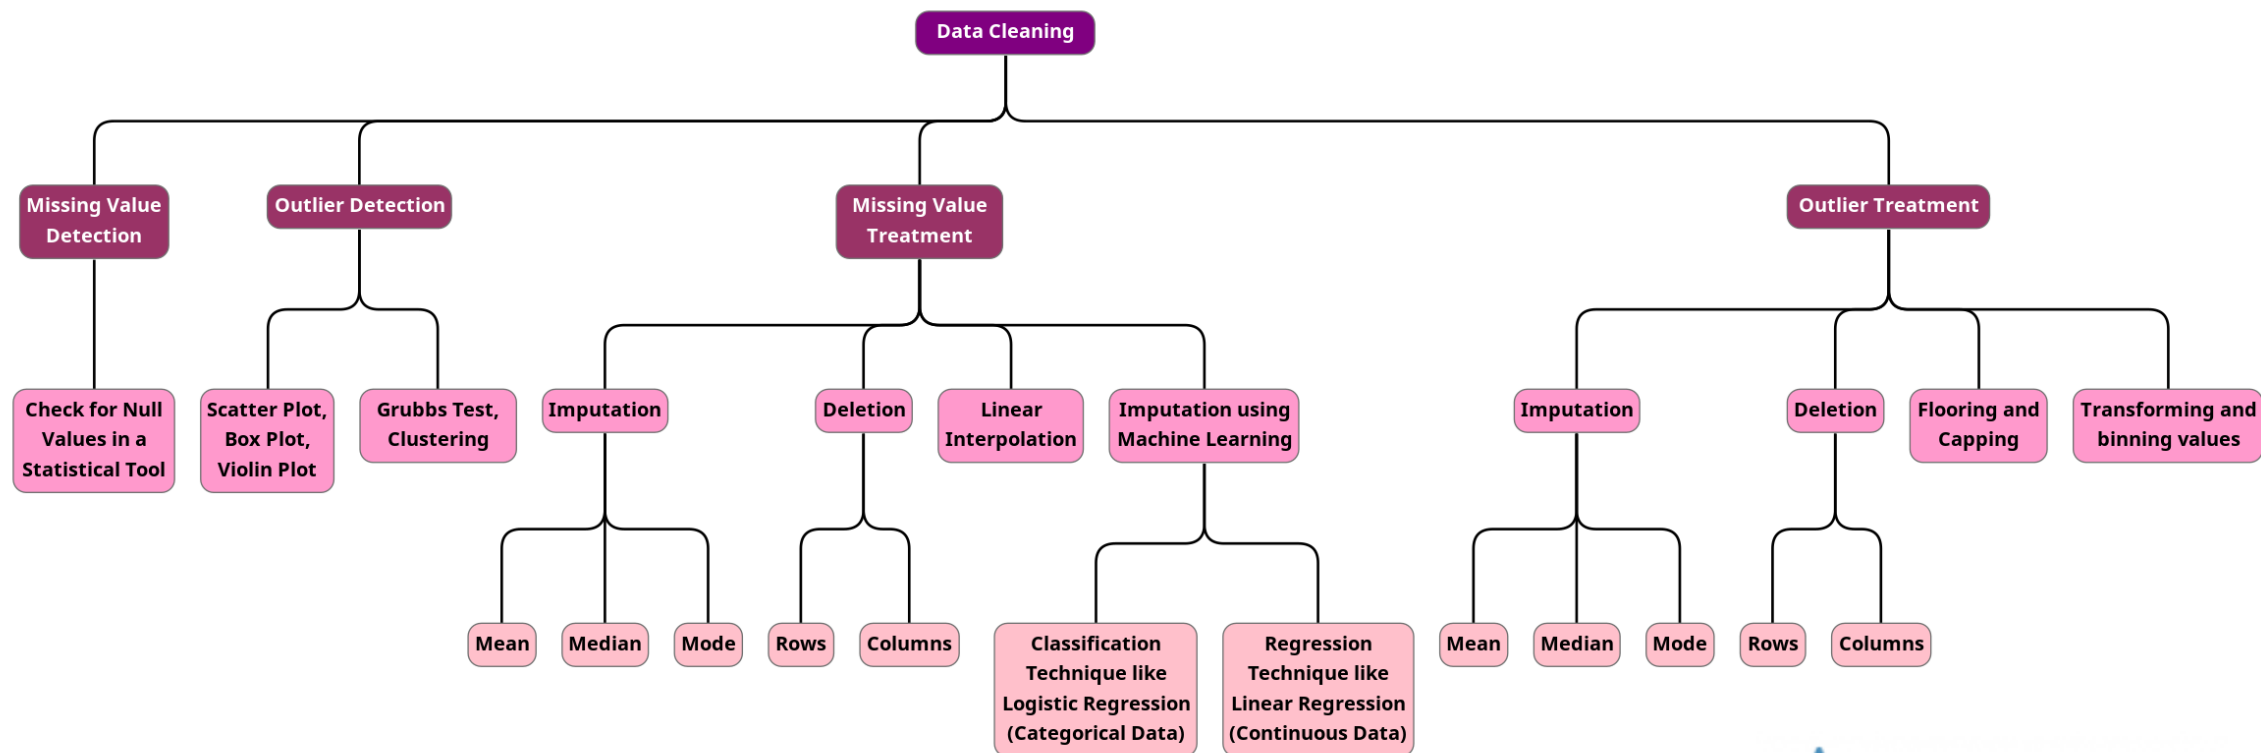

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

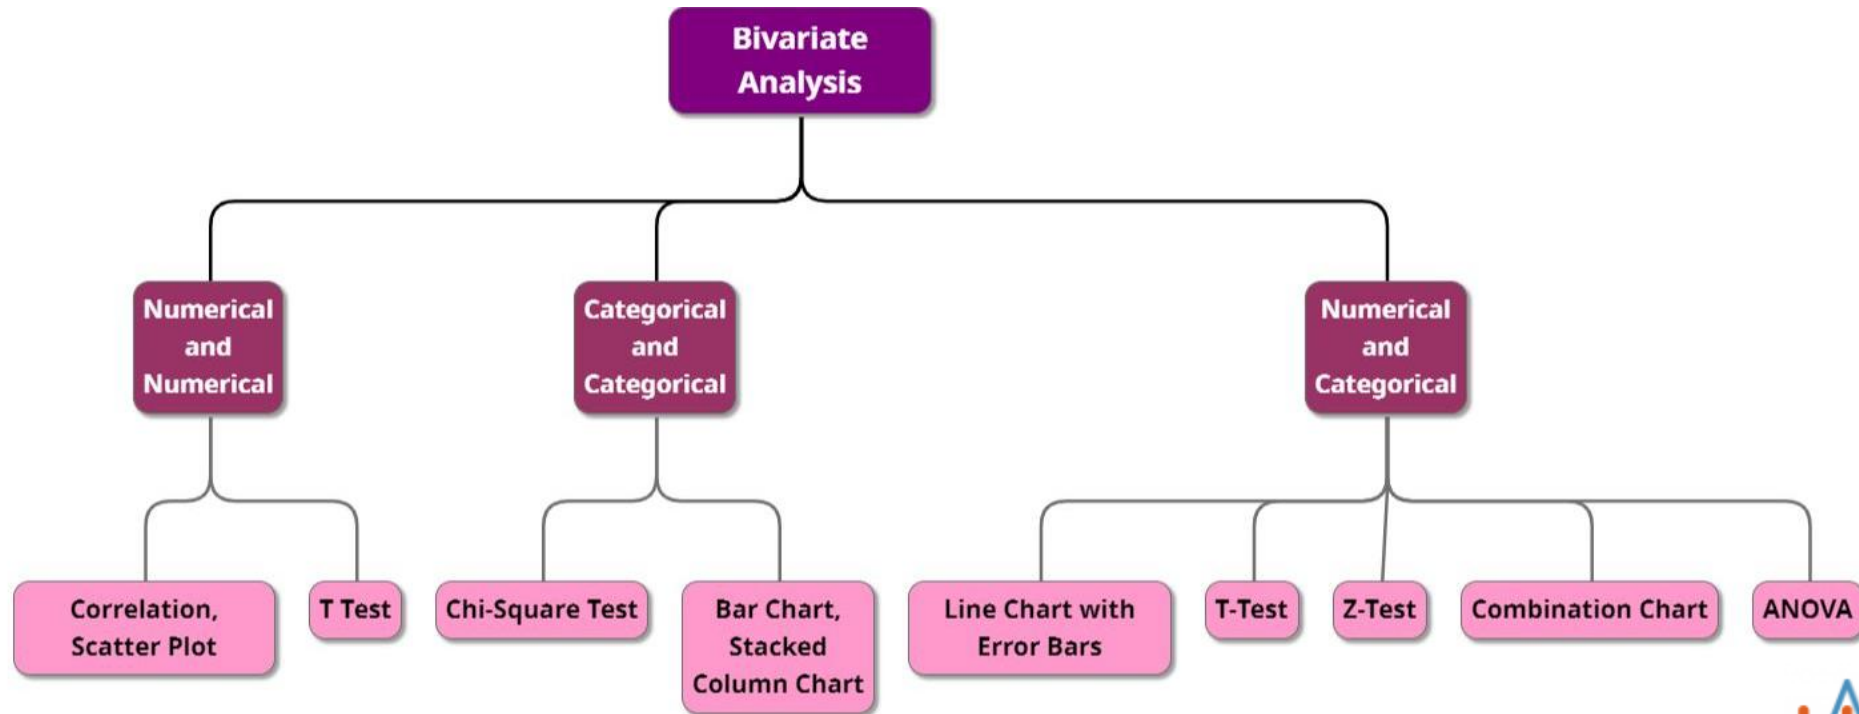

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

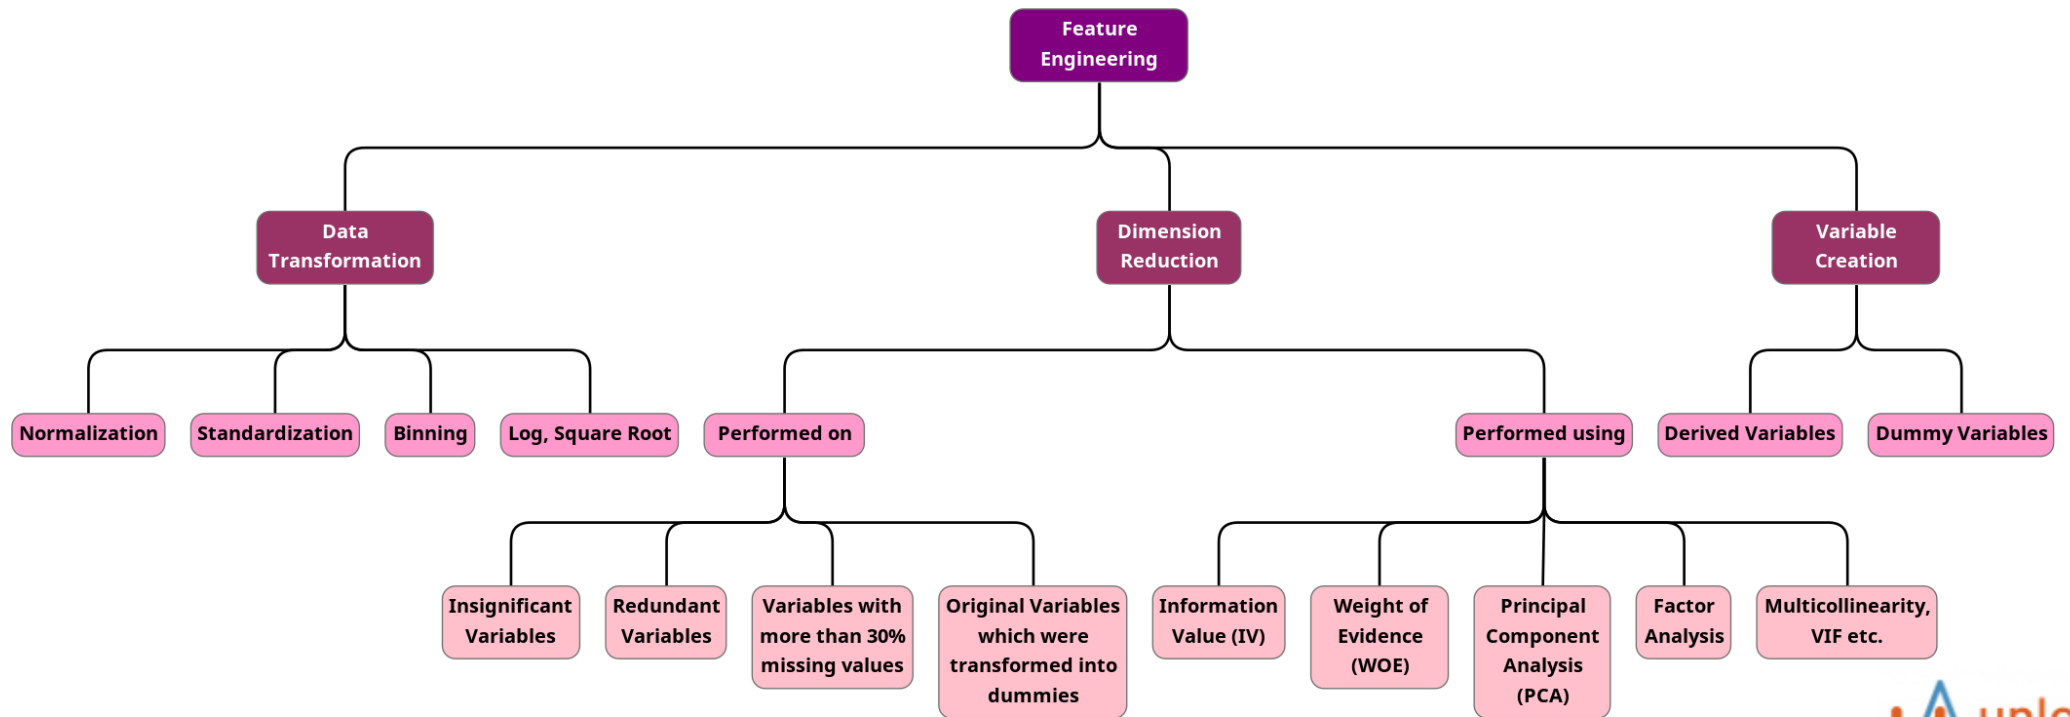

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

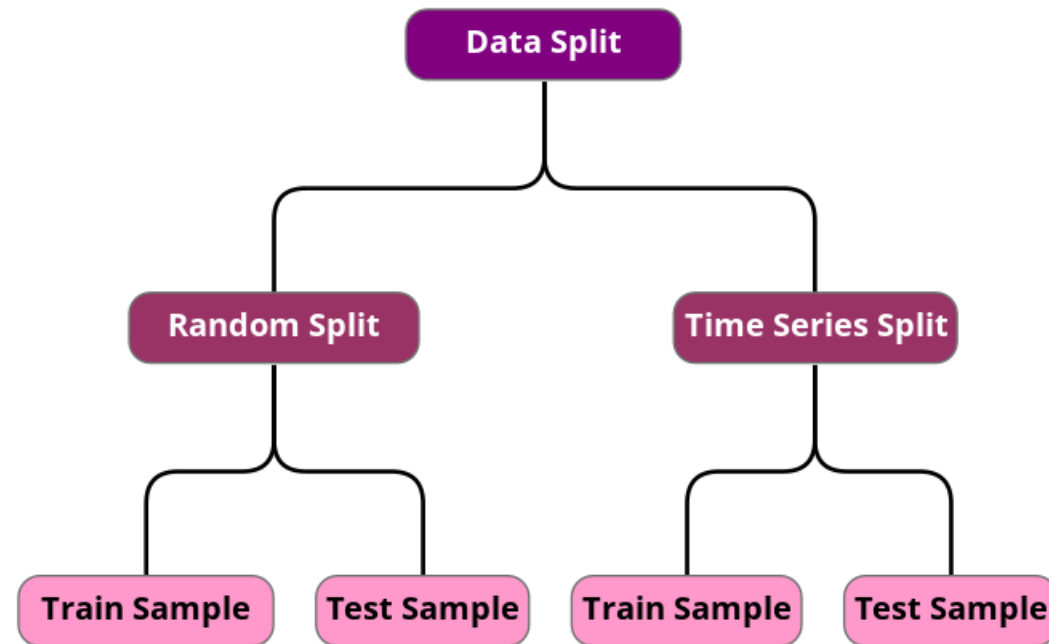

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

Anatomy of Statistical Model

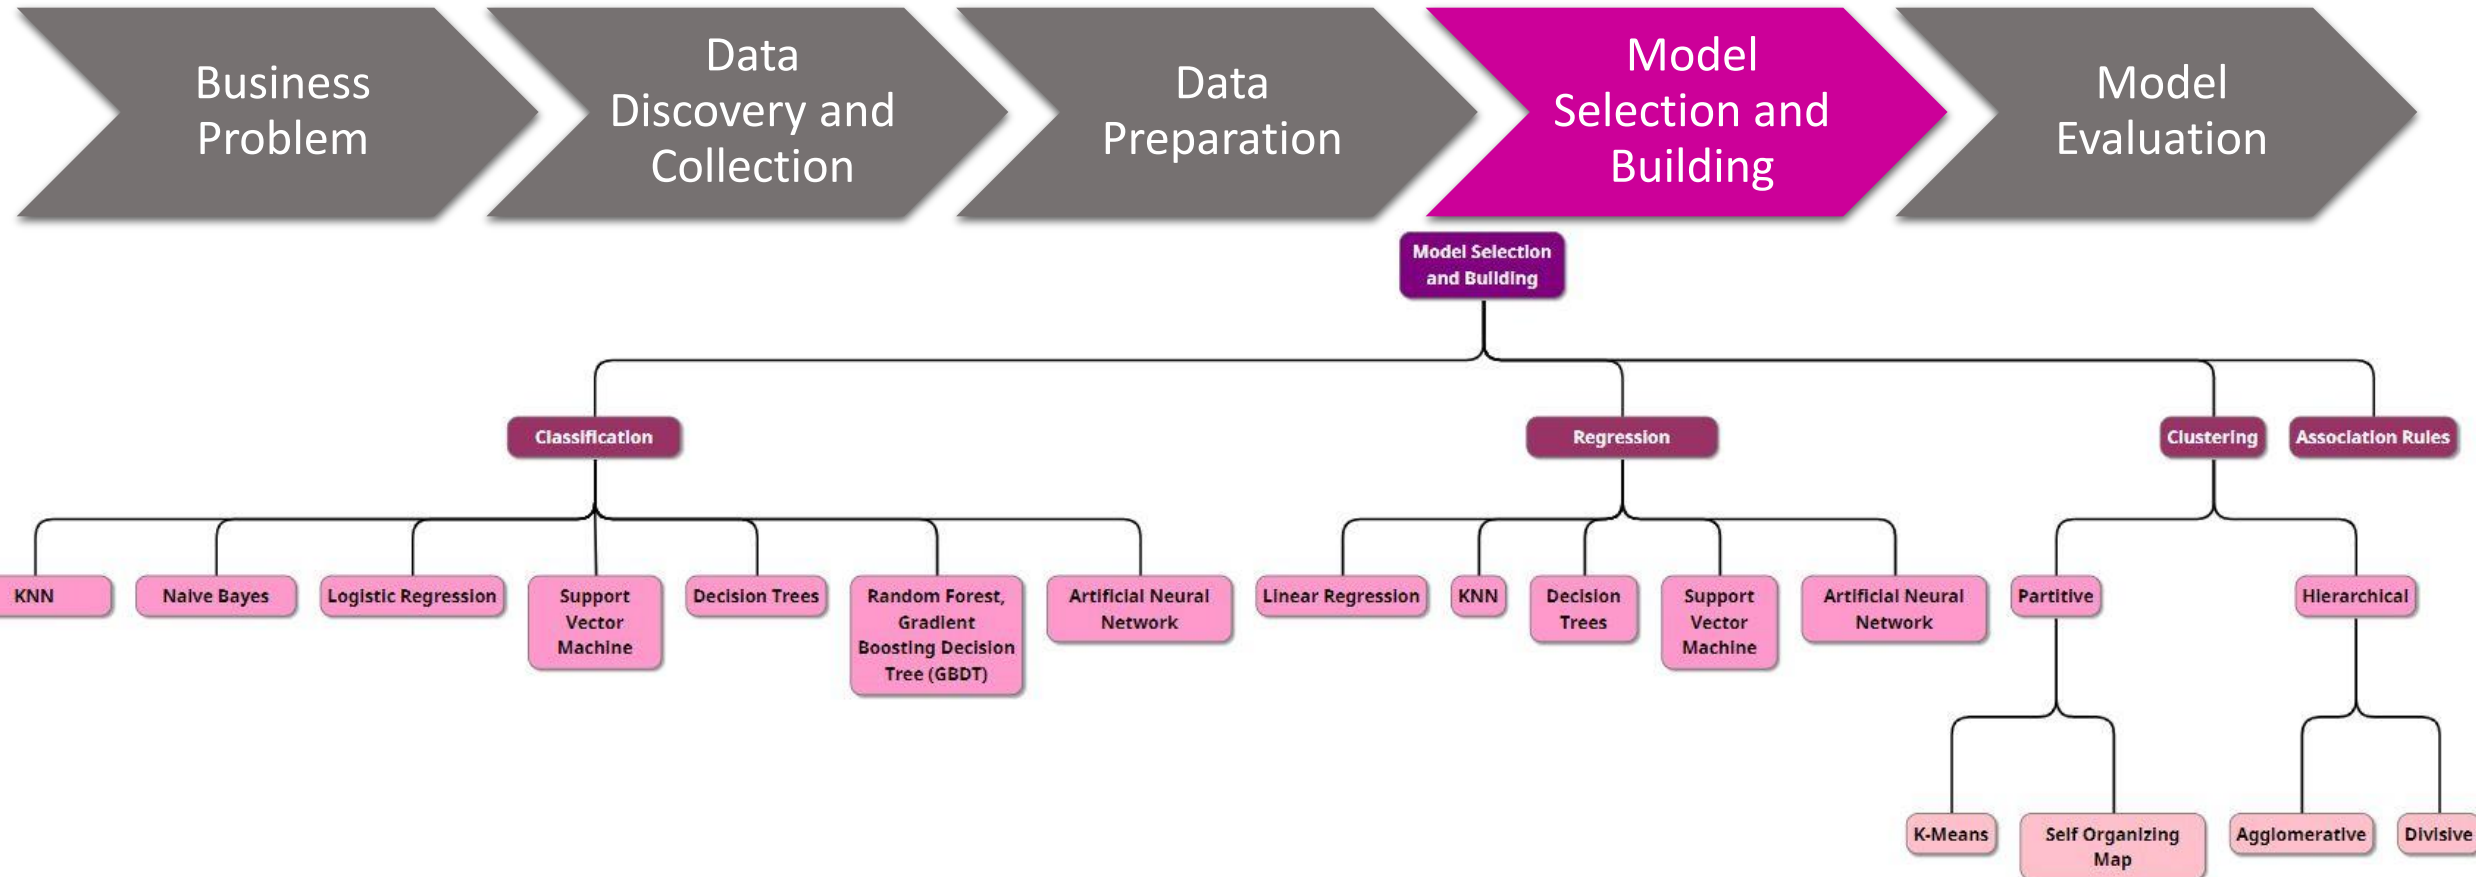

A step-by-step approach to solve a Business Problem

- Regression
- Classification
- Clustering
- Association Rule Mining, etc.

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

- Score And Predict using Test Sample
- Check the Robustness and Stability of the Model
- Check Model Performance, Accuracy, ROC, AUC, KS, etc.

Anatomy of Statistical Model

A step-by-step approach to solve a Business Problem

Business Problem

Data Discovery and Collection

Data Preparation

Model Selection and Building

Model Evaluation

Model Evaluation

Regression Model Evaluation

Classification Model Evaluation

Mean Absolute Error (MAE)

Mean Square Error (MSE)

Root Mean Squared Error (RMSE)

Mean Absolute Percentage Error (MAPE)

Mean Percentage Error

Coefficient of Determination (R Squared, Pseudo R Squared)

Confusion Matrix

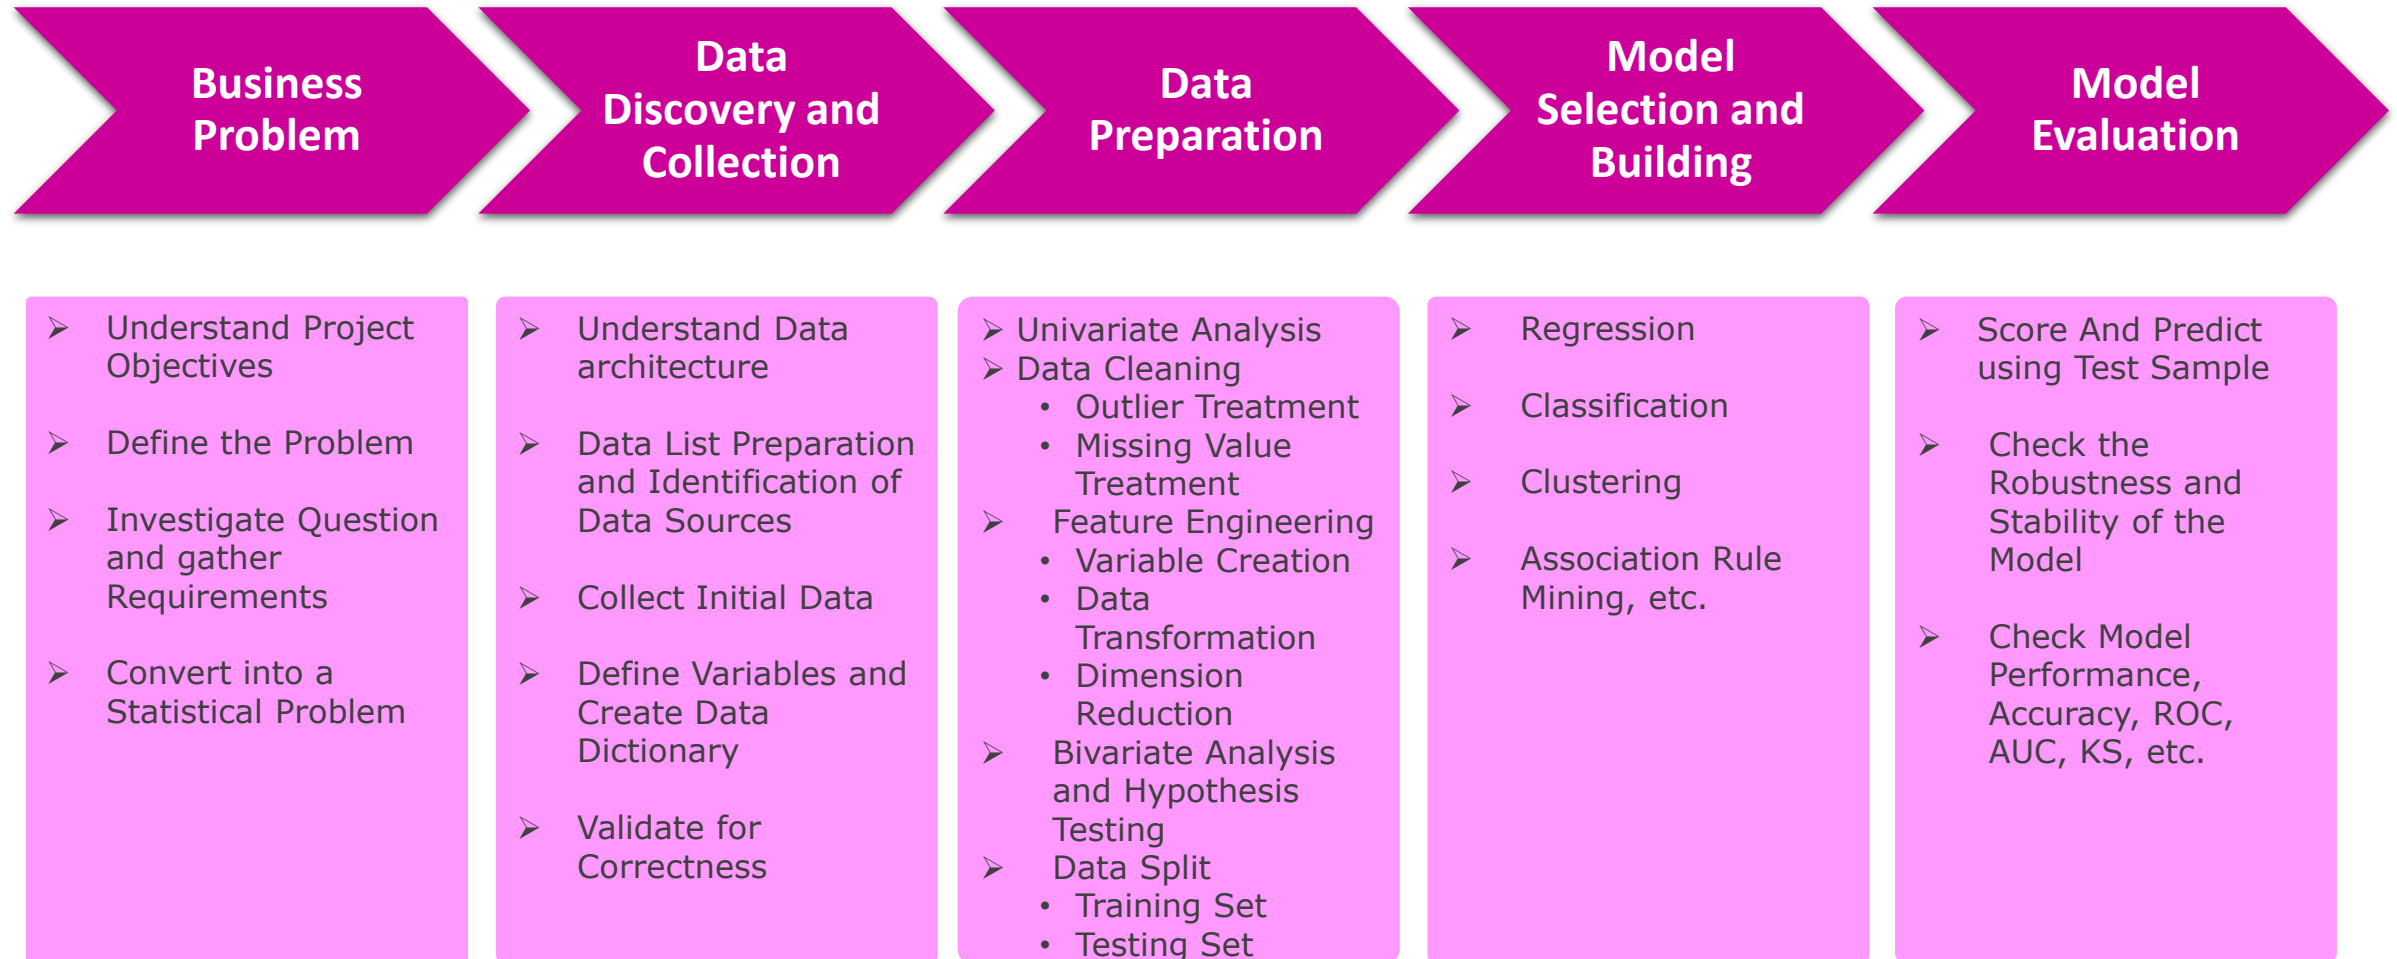

Accuracy, Precision, Recall, F1 and Specificity

ROC Curve, AUC

Gain and Lift Charts

KS Chart

A step-by-step approach to solve a Business Problem

Business Impact : Return on Investment (ROI)
